

BLUE + BRIGHTSPACE

# A New Level of Integration that Drives Student Engagement in Course Evaluations

# We are Leaders in Brightspace Applications

Focused on helping institutions strengthen student engagement, Explorance developed a best-in-class integration that makes the course evaluation process even more streamlined.

This integration simplifies the experience by embedding Blue forms directly into the Brightspace platform. Now students can seamlessly view, access, and complete course evaluations without leaving the Brightspace portal, while administrators can customize and control various functions to drive participation.

## A Simple User Interface with Multiple Access Points to Course Evaluations

Using LTI integration with native Brightspace functionalities, we've created a streamlined end-to-end user experience. Direct links will give students quick access to Blue course evaluation forms that they can complete with ease inside Brightspace.

### PARTICIPATION

#### Login pop-up

When students log in to Brightspace, courses with incomplete or pending evaluations are displayed in a pop-up window. The evaluation titles are clickable and link to the related forms inside Brightspace.

### REMINDERS

#### Course evaluation

Students can view and access current, upcoming, and past due evaluations with their status and due dates under the course evaluation tab.

## For Administrators

To further drive engagement, we've given administrators the ability to easily customize different functionalities and options for each course in one place. Features that can be configured include:

### Pop-up message

Ensure all evaluations are completed by enabling the pop-up message to appear when students log in. Reset it every semester and give students the option to bypass it.

### Course block

Achieve high response rates by activating a course block when there are pending evaluations.

### Customization

Streamline the student experience by providing a consistent interface and messaging. Tailor content and include your school logo inside the pop-up and course block windows.

## For Faculty

Blue provides best-in-class functionalities that allow faculty to easily view and control course evaluations.

- Administer online evaluations in class
- Tailor questions to meet your goals
- Monitor response rates in real-time
- View historical reports + perform time trend analysis
- Drill down into summary charts

## Blue Connector

Available on the Edu App Center, the Blue Connector is an easier way to enter information into Brightspace. Increase transparency and engagement in course evaluation by sharing response rates with students. Provide access to all assigned evaluations with their end dates and direct links to complete them inside your portal.

## Explorance and Brightspace: A Truly Integrated Partnership

At Explorance, we believe that each experience matters. From students in higher education to employees at the workplace, feedback is vital for the lifelong learner's journey. That's why Explorance's mission is to help organizations create a personalized journey of impact and fulfillment for their people through innovative Experience Management (XM) solutions.

A Brightspace Partner, the Blue course evaluation software and the Bluepulse continuous listening platform fully integrates with the Brightspace environment providing a seamless user experience for optimal results. Explorance's clients include Brightspace institutions such as Mohawk College, Middle Georgia State University, Sheridan College, Shippensburg University of Pennsylvania, College of Charleston, and Red River College.

**Engage students and instructors in the  
course evaluation process with deep  
LMS integration.**
