

Understand Teaching Data with Explorance + Interfolio

INTEGRATE COURSE EVALUATION INSIGHTS INTO FACULTY ACTIVITY REPORTING

Instruction is central to what your faculty do.

Bring course evaluation insights from **Blue** directly into **Interfolio Activity Reporting** — and use it for accreditation, faculty development and formal reviews, institutional research, and more.

Used by hundreds of academic institutions around the world, Blue is the Student Experience Management platform that brings feedback to the heart of the story.

Through a fully automated course evaluation process, Blue adds value to any institution by reducing the time needed to prepare, send, analyze, and produce reports on evaluations—so that they can focus on improving learning and student success.

A complete platform, Blue enables institutions to assess needs, expectations, skills, knowledge, and competencies.

By seamlessly integrating with any IT system (SIS, ERP, LMS, HRIS, CRM, etc.), Blue gives administrators flexibility, personalization, and control when gathering student feedback.

Interfolio Activity Reporting is the ideal tool for managing data on the work of university faculty—especially for accreditation, academic reviews, and institutional research. Activity Reporting is part of the groundbreaking Interfolio Faculty Information System.

Pulling in data from a wide range of sources, and validating it via the individual faculty member, Interfolio captures publications, grants, patents, courses taught, performances, committee service, and all other academic professional activities.

Interfolio accommodates nearly every academic discipline, activity type, and faculty rank.

Over 300 academic institutions currently use Interfolio to manage their faculty data.

COMING 2020

Access Blue within Interfolio Activity Reporting

Academic institutions using both Blue and Interfolio Activity Reporting will be able to:

- **Capture the student voice**—and compile responses into insights—via Blue
- **Pull up rich analytics** and **course evaluation data** stored in Blue from within the Interfolio Activity Reporting environment
- **Clearly display**, through the Interfolio homepage, **any faculty member's current tasks** related to the feedback gathering process through Blue
- **Make longitudinal data** on course evaluations transparent to faculty members
